WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation®2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:
Do not connect your PlayStation®2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:
The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION®2 FORMAT DISC:
• This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
• Do not bend it, crush it or submerge it in liquids.
• Do not leave it in direct sunlight or near a radiator or other source of heat.
• Be sure to take an occasional rest break during extended play.
• Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

The seeds of destruction are sprouting.

NOSTRA's destruction at the hands of Agent Alec Sects saved the world as we know it. However, NOSTRA's operations extended around the world and the fragments of the network, like the roots of weeds, have grown ambitious again. The spies and assassins are under the control of a central figure, but who and for what reason remain a mystery.

Agent Sects must once again battle the forces of chaos in their bid to take over the world. But this time, he is not alone.

The feisty Agent Duvelle of IES [International Espionage Services], joins him in the adventure that will take them to the most exotic parts of the planet. From the steppes of Russia to the steamy jungles of Cambodia, they must hunt down and destroy the terrorist operations using the most technologically advanced equipment at their disposal.

The G-8155 Interceptor boasts new off-road capability, heat-seeking missiles, an energy shield, as well as the invaluable transition capabilities to aid escape when damaged. IES has authorized the use of mobile weapons vans in hostile territory to resupply ammunition and provide repairs. Brand-new artillery vans with a 360-degree mounted machine gun have also been designed and unveiled specifically to counter this latest threat.

It's now up to Agent Sects and his formidable support team to thwart global destruction using a combination of speed, versatility and firepower.

The Hunt begins again.
